

# MIPS

## MADE SIMPLE

**A MIPS REGISTRY DESIGNED BY  
RADIOLOGISTS FOR RADIOLOGISTS**

A Collaboration Between  
**SaferMD & SunCoast RHIO**

- + Avoid negative Medicare payment adjustments
- + Use our High Priority and Outcome measures to qualify for CMS's \$500 million bonus pool
- + Automatic data transfer available
- + Robust data validation

**SAFERMD**  
MEASUREMENT THAT MATTERS

*SunCoast*  **RHIO.com**  
EDUCATE • EMPOWER • ENGAGE

## **TWO MIPS REGISTRIES**

Both SaferMD MIPS registries support all standard CMS measures, including Quality, Practice Improvement Activity (IA) and Advancing Care Information (ACI). In 2017, SaferMD's QCDR is the only CMS-authorized registry that supports these measures:

### **SAFERMD'S RADIOLOGY QCDR MEASURES**

- + Critical Test: OR Foreign Body
- + Critical Test: Stroke
- + Critical Test: Intracranial Hemorrhage
- + Critical Test: Aortic Dissection
- + Critical Test Protocol
- + Critical Result: Pulmonary Embolism
- + Critical Result: ICH
- + Critical Result: Aortic Dissection
- + Critical Result: Occlusive Intracranial Stroke
- + Critical Finding: Positive bleeding scan
- + Critical Finding: CTA of GI bleed
- + Critical Result: Placental Abruption
- + Critical Result: Ruptured Ectopic Pregnancy
- + Critical Result: New DVT
- + Critical Result: Ectopic Pregnancy
- + Critical Result Protocol
- + Urgent Result Protocol
- + Unexpected Result Protocol
- + Result Requiring Follow Up Protocol
- + Critical Finding: Acute Ocular injury
- + Critical Finding: Cord Compression
